NOTES:	(1) Products from IA Wholesale Price List available - contact FRW Coordinator. S&H varies.					
	(2) Final S&H charges for <i>Other Sanding Supplies</i> are pro-rated among those orders. Lowest S&H for sheets is about \$20, so must order about 6 sheets to make the 20% S&H charge cost effective. The effective price of 1 sheet would then be about \$20, making the cost of each 2.25" disc square (256 squares total) about 8 cents (down from 18 cents per pre-cut disc) , and making the cost of each 3.25" disc square (121 squares total) about 17 cents (down from 25 cents per pre-cut disc) .					
	(3) Grit choices are any of the grits cited above for discs.
