

## Professional Blue Halfmask Respirator

Durable silicone face piece guaranteed to withstand **five years** of washings. The unique sliding adjustment system on the head harness keeps loose straps secure and out of the wearer's vision.

New improved yoke and head harness design reduces face piece slippage.

**Available in Three Sizes:**  
Small to Large

NIOSH Approval:TC-84A-1427

This respirator is recommended for protection against mists of paints, lacquers and enamels; insecticides, herbicides, fungicides and pesticides free of oil; dusts, fumes and mists free of oil; and certain organic vapors. Not for fumigants.

## Opti-Fit™ Fullface APR Respirator

- Exceptional view with new state-of-the-art lens
- Comfortable, durable silicone skirt
- Lens is replaceable and treated with an anti-scratch coating
- Standard nose cup helps prevent fogging

This respirator is recommended for protection against mists of paints, lacquers and enamels; insecticides, herbicides, fungicides and pesticides free of oil; dusts, fumes and mists free of oil; and certain organic vapors. Not for fumigants.

NIOSH Approval: #TC-84A-1420
