

## WOODTURNERS CLUB

4403 South Tamarac Parkway  
at Woodcraft's classroom  
Just east of I-25 and north of I-225

!!!! NEXT MEETING JULY 5<sup>th</sup> !!!!  
7:00 PM

---

Even though June 6 was only the second meeting of area woodturners, attendance has grown to 31. The geographic draw of those attending is amazing. We had people visit from as far as Loveland, Boulder, and Golden. There was even someone from Pine, CO, wherever that is. The club appears to have a tremendous resource of talent, and many of those are willing to help those of us just starting in the craft.

We all had a fantastic time watching Dave demonstrate bowl turning techniques at the last meeting. I apologize that I don't remember Dave's last name, I'll get that squared up

in the next newsletter, Ok. By the way, the bowl mounting technique for turning a foot described by Dave is discussed in detail in Dale Nish's book "Master Woodturners" under the write up on Jack Straka. Great Job DAVE!

The July 5th meeting will have a demonstration of box making. So please attend. Also, please bring examples of your work, even if you're a beginner. We all had a great time looking at others work and asking questions. So please attend the next meeting.
