## Front Range Woodturners

A Chapter of the American Association of Woodturners

## NEXT MEETING APRIL 6, 1999

The next club meeting of the Frontrange Woodturners will be APRIL 6, 1999 . The meeting will be held at Schlosser Machinery, 301 Bryant St, Denver, as usual.

Our guest at the April meeting will be Paul McClure, who is an internationally known expert on wood. Paul will discuss the properties of many woods we work with regularly, including and perhaps especially wood toxicity. You may be suprised to learn the toxic nature of some common woods.

Do you know that tapes are made of every meeting and they are available to borrow from our library?

### UPCOMING EVENTS!
