FRWT NEWS

Front Range Woodturners

A Chapter of the American Association of Woodturners

Our next meeting will be June 13, 2000, at Schlosser's.

Fresh from the Provo Symposium, Pete Holtus will demonstrate turning miniature birdhouses (ornament size.) If any of you are turning these small birdhouses already, bring them to the show and tell.

It looks like our demonstrator for July 10th will be Soren Berger. I believe that Betty Scarpino is scheduled for later this year.

The club now owns a Vicmarc VL200 shortbed lathe with 1HP DC VS drive and a very substantial steel bench, drive center, live center, and 2 tool rests. Al negotiated a terrific deal on this lathe and it will be a pleasure to turn on.

Beginning with the July meeting, meetings will be held at Rockler's. They have set up a shop downstairs which will allow us access to a drill press and a bandsaw too, which will be handy for demo's. We will need volunteers to move the club property (chairs, TV, speakers etc.) so please pitch-in. More on this at the June 13 meeting. If several volunteer, then there will be very little work for any one person. PLEASE HELP.

I have heard that the Rocky Mountain Woodturners will host another one day symposium this fall but I don't have the details. If any of you would like to get the Rocky Mountain Woodturners newsletter via e-mail, please send your request to Nancy Quick-Brewer: Woodturns@aol.com.
