News

Important Notice – New Meeting Time!

At the January meeting, it was proposed and approved by majority vote of the attendees that future meeting times be moved to 6:30 pm. This allows more time to get club business done without impacting the time for the demonstrations.

Correction

In the previous newsletter, credit was given to Pete Holtus for the miniature birdhouse donated to the Holiday Party Auction. The credit should have been given to Ronald Bentall – apologies to Mr. Bentall for the error. ❖

Show and Tell

There was some discussion about how long the Show and Tell has been taking, with concerns expressed about the fact that it sometimes cuts into

FRONT RANGE WOODTURNERS

the time of the demonstration. There was also a concern of selecting only a few to talk about, which would leave some out.

The decision was made that empty descriptive cards will be provided to the people bringing items to the Show and Tell to fill out. That way, each person can read the cards and during the break, contact the artist about a specific piece.

Several members brought some beautiful pieces, including some that were notable for their detailed woodburning.

Thanks to David Bailey for all the photos. ❖

Demonstrations

January Demo

Bear Limvere gave a lively and interesting demonstration of his stacked ring method of building tall blanks out of flat stock. For his first public demonstration, he did an excellent job.
(Editor's note: The editor's opinion in no way reflects the fact that she is Bear's wife, but is a reflection of comments

made to her from multiple sources. That being noted, she adds, "Good job, Honey!")

Bear at the lathe.

Samples of bowls created using technique.

The handout for Bear's demo will be posted soon at his Web site. Watch the newsletters for details.

Handout Assistance

Alisa Limvere made the offer to assist any demonstrators in creating hand-outs of their

FRONT RANGE WOODTURNERS

demonstrations. See FRW Newsletter Contact Info on page 3 for information about how to contact her. ❖

Schlosser

Schlosser has just received a floor model of the Vega Midi-lathe Duplicator on a Delta lathe. It is the first Midi-lathe duplicator on the market. Hopefully, it will be setup and will be demo'ed and available for hands-on practice before the February meeting. It will be available for ordering for \$229.

New Item – Porter Cable Reciprocating Saw. Fully reticulated, can bend sideways or up or down to fit into tight places.

Please note – Schlosser also provides the service of special ordering for items that they may not have in stock. If it is available to them through their providers, they can get it for you. Talk to Phil at Schlosser for more information. ❖
