News

Jimmy Clewes Demo and Class

Jimmy Clewes is an internationally known turner from Durham, England. He will be providing a split demonstration for us in May: 1:00 pm to 4:00 pm, and then our standard 6:00pm to 9:00 pm. In addition, Jimmy Clewes will be teaching a 2-day class, May 4th and 5th, 9:00 am to 5:00 pm at Rockler. He's come a long way to demo for us and here's your chance to attend a class by a world-class turner. These classes provide the incentive for him and other turners to travel world-wide to demonstrate. Prices are \$100 per person per day (\$200 for both days). His specialties include coloring, metal inlay, and wide-rimmed platters. Check out his website at www.jimmyclewes.com. Contact Andy Zartman at 303-859-0754 to sign up for the class.

We are looking for volunteers to give Jimmy a place to stay while

he's in town and to ferry him between the Airport to Rockler. Contact Andy Zartman if you think you can help.

Reminder – Belt Sander Races!!

If you've never attended the Annual Belt Sander Races at Rockler, you're definitely missing out on a bunch of wacky people taking perfectly good belt sanders, "souping" them up, and then competing against each other to see who is the fastest. It's fun. It's hilarious. And it's on Saturday, April 30, starting at about 9:00 am. There will be a tool swap, hot dogs and beverages, so bring the kids and introduce them to the wonderful world of power tools.

Rockler has very generously donated a Porter Cable belt sander to the club to use in their races. If you are interested in joining the FRW Racing Team, contact Ron Bentall at the next meeting.

Volunteers Needed

We need volunteers who can show up at 5:00 pm at Rockler before each meeting to brew coffee and setup. Please contact Ron Bentall or just appear. We'll put you to work.

Segmented Turning

Jerry Smith is offering a series of classes teaching segmented turning. He has them scheduled for May 7 and May 21 at his

FRONT RANGE WOODTURNERS

workshop. Contact Jerry at the meeting to sign up.

Hardwood Scavange

Consolidated Hardwoods has offered to allow FRW members to scavenge end cuts, shorts, etc. for free. The next two wood pickups are scheduled for May 14 and May 28, starting 9:00 am at Consolidated Hardwoods. Bring sawhorses and power saws (chainsaws, chop saws). Anyone who participates must take *all* the wood that is provided and help to clean up afterward (Consolidated requires that all wood that is pulled from their piles be removed and no mess left behind). Here is a chance to stock up on domestic and some imports in lengths very suitable for segmented turnings, laminations, and miniatures.

Reversing the Jet Mini

Bruce Perry and Brandon Mackie have come up with a way to reverse the Jet Mini-lathe. Check out our website for the easy instructions!

Mentoring Classes

Phil Houck has organized hands-on mentoring classes at Rocklers for the 2nd and 4th Mondays of each month. This is one of the benefits of being a member where you get hands-on training and practice using tools and the lathe. This is an excellent opportunity for those beginners and those wanting to practice up. Sign up early because these classes fill quickly. Phil's info is in the Club Information (see page 9).

AAW Board Members Wanted

Now is the time to not be modest, but to consider what you can do for other turners. There will be 3 open positions on the Board of Directors of the AAW this year. Six names will be selected by the Nominating committee from all that apply to be nominated and those six will be on the ballot for the general election to fill the 3 vacant seats. In order to be considered for nomination, the following 3 things must be sent to the AAW Managing Director, 222 Landmark Center, 75 W. Fifth St., St. Paul, MN 55102, postmarked no later than May 15, 2005.

1. A statement of intent including qualifications and reasons for applying.
2. Letters of recommendation from 2 individuals who can affirm your organizational and leadership abilities.
3. A photograph of yourself (shoulders and head).

Bulk Orders

As always, check with Dave Hawley at each meeting if you have placed an order with him or if you want to get in on one of the bulk orders that he organizes.

Following is the schedule of bulk orders that Dave will be organizing for 2005:

Industrial Abrasives: Apr, Jul, Oct
Starbond (CA Glue): Sept
Craft Supplies: Apr, Oct
Cutting Edge (Tools): Apr, Oct.

All bulk orders depend on making minimum amounts to get the discounts. The greater the order, typically the greater the discount. Again and as always, thanks, Dave, for working so hard to save us all some money.

FRONT RANGE WOODTURNERS

Diagramming the requirement for true quartersawn stock and how the pieces are cut and grain aligned.

Showing how the grain will align with each piece, and the "V" showing how the piece will be chamfered. John uses 60° chamfer bits in his router table, being careful to clamp feather boards and support boards to support the sides and top of the long narrow stock as it is fed through the router. However, he says you can get a 4-part laminate just using good birch quarter-round molding without requiring any premachining of the stock.

Showing string used as clamping method down glued stock.

John's turning tools – two Surform blades taped at end to make a "sandwich."

Closeup showing the Surforms in action.

Closeup of John's "tailstock" – pipe mounted to a camera tripod and the rod allowed to spin freely.

Showing John's full setup. Butt end of rod is clamped in chuck jaws. Tapered end is fed through pipe on tripod. John never turns on lathe without steadying the rod to ensure that it doesn't start whipping.

John's sanding tools – sandwich blocks with different grades sandpaper and loose hinges to allow blocks to ride taper.
